# Power to the Salespeople

Foureyes® helps you sell more with complete visibility into your prospects' activities

In our world, salespeople are at the center. When most technology is making your job harder, Foureyes exists to help you make sales easier. Our technology tracks your prospect's website and phone activity, qualifies your prospects, and sends notifications to help you manage your leads effectively.

Sales Prospects Not In CRM

## Email & Text Notifications

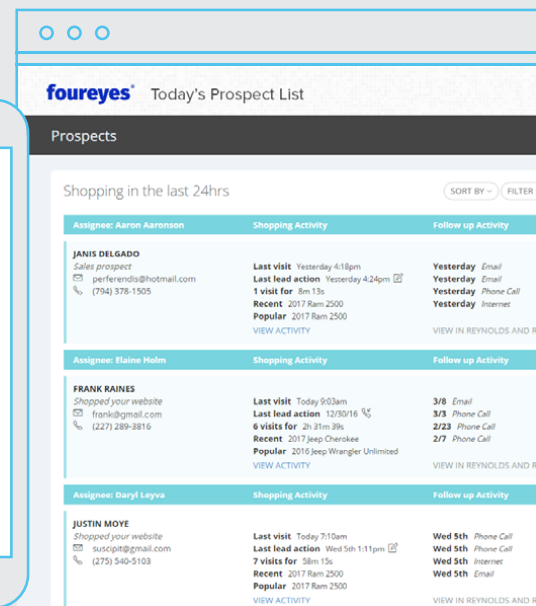

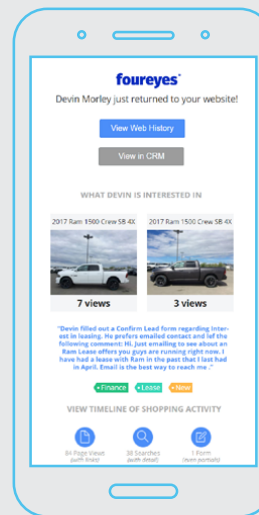

Take advantage of these real-time notifications to reach prospects when they are actively shopping your website and close deals fast.

## Prioritized Prospect Lists

See a list of all your active prospects, prioritized to help you follow up and sell effectively.

## Complete Prospect Tracking

We track your website pageviews, chats, forms, and calls to give you complete visibility into your prospects' shopping behavior.

## Getting Started with Foureyes is Simple

We place our Foureyes script on your website and in 10 minutes setup is complete. We also offer ongoing training throughout the time you are a Foureyes customer. This training is aimed at helping you improve your selling skills using the insights and data from Foureyes.

## #foureyes-love

**"It's great to feel like a mind reader. The customer thinks you're this amazing salesperson, but I'm just using what Foureyes tells me."**
